Attorney's Docket No.: 10280-063001

**REMARKS**

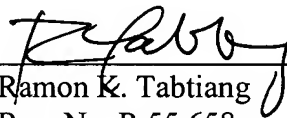

Applicants hereby submit that the enclosures fulfill the requirements under 37 C.F.R. §1.821-1.825. The amendments in the specification merely insert the paper copy of the Sequence Listing and sequence identifiers in the specification. No new matter has been added.

Applicants have *not* used the terms in the sequence listing, such as "artificial sequence" and "synthetically generated peptide" to describe the human origin, human identity, or effectively human properties of certain disclosed sequences. Rather, these terms only reflect, for example, that the sequences were identified by the artificial method of phage display.

Please apply any charges or credits to Deposit Account No. 06-1050, referencing attorney docket No. 10280-063001.

Respectfully submitted,
